Please mark all measurements in millimeters. If you are templating more than one template, please mark template number in the box above. We cut to the exact measurements you put on the template. Our tolerance is +/- 1mm. Be sure to measure in a couple of different places to ensure that the dimensions are the same across the whole panel.

Once completed email your template (along with any special requests, socket holes or colour) to: sales@cebelio.co.nz
